

Sign the **RESPECT!**SM Declaration

Around the world, at least 1 in every 3 women has been beaten, coerced into sex or otherwise abused during her lifetime, and more than 10 million American children are living in homes where there is violence.* Be part of the solution. Sign the RESPECT! declaration. I promise to build a new kind of society that encourages decency and RESPECT! for all. A society where boys and girls are taught that violence does not equal strength. A society where men, women and children stand with courage, lead with conviction and treat others with kindness, compassion and respect.
